Customer Reviews

This is a system which has existed for years. It is a dangerous system with potentially huge drawdowns. $10 for a system that does not work. Just a few pages written. No one would buy this if they thumbed through it at a real bookstore. Just someone hoping you’re too lazy to ask for a refund.

Loved the book very easy to read. I work nights and I’m very busy so I don’t have screen time. With this strategy I know I can do this and it doesn’t take up my time
