A Captain's Duty: Somali Pirates, Navy SEALs, And Dangerous Days At Sea

Synopsis

"I share the country's admiration for the bravery of Captain Phillips and his selfless concern for his crew. His courage is a model for all Americans."--President Barack Obama It was just another day on the job for fifty-three-year-old Richard Phillips, captain of the Maersk Alabama, the United States-flagged cargo ship which was carrying, among other things, food and agricultural materials for the World Food Program. That all changed when armed Somali pirates boarded the ship. The pirates didn't expect the crew to fight back, nor did they expect Captain Phillips to offer himself as hostage in exchange for the safety of his crew. Thus began the tense five-day stand-off, which ended in a daring high-seas rescue when U.S. Navy SEALs opened fire and picked off three of the captors. "It never ends like this," Captain Phillips said. And he's right. A Captain's Duty tells the life-and-death drama of the Vermont native who was held captive on a tiny lifeboat off Somalia's anarchic, gun-plagued shores. A story of adventure and courage, it provides the intimate details of this high-seas hostage-taking--the unbearable heat, the death threats, the mock executions, and the escape attempt. When the pirates boarded his ship, Captain Phillips put his experience into action, doing everything he could to safeguard his crew. And when he was held captive by the pirates, he marshaled all his resources to ensure his own survival, withstanding intense physical hardship and an escalating battle of wills with the pirates. This was it: the moment where training meets instinct and where character is everything. Richard Phillips was ready.

This is a great book on several levels.1 - It shows you how much you depend on the Merchant

Marine whether you know it or not. That TV from China did not get here by itself.² - It shows what you can accomplish when you have a strong sense of duty, no matter the risks.³ - It shows that a SEAL team is not a group of people to be trifled with (I hope you already knew that) I read this book cover to cover in two sittings. My dad was in the USCG and the Merchant Marine so I connected with it right away. I also had a good friend that went to Massachusetts Maritime Academy before he died much too young. When I read Captain Phillips book, I could hear the New England accent and my friend's laugh. Just from the picture on the cover you get the idea that this is a guy when he tells you something you probably should listen. He was not operating with false bravado, nor was he trying to show off - he really was performing A Captain's Duty. He also generously doles out praise for his crew, the Navy, the SEAL team, and everybody that said prayers for him and his family. This is the story of a remarkably composed guy thrown into an awful situation and what he was able to accomplish by not giving in to fear and panic. I hope two things after reading this book. One is that I am never in a situation that resembles anything like this and second, if I am that I can be at least half as composed as Captain Phillips. He does not claim to be a hero, he does not claim to have done anything that anyone else could not do - as a matter of fact he points out that anybody could do what he did if put in the same situation. I beg to differ, but I will take him at his word. It is good to know that there are still a few REAL MEN left.

On April 8, 2009 four Somalian pirates took over an American flagged cargo ship by the name of "THE MAERSK ALABAMA". The name of the Alabama's captain was Richard Phillips... and this is the story of his life leading up to... and including the takeover of the ship... and what eventually became a fight for his life... when he deftly maneuvered the pirates... who the captain nicknamed "LEADER"... "TALL GUY"... "MUSSO"... and "THE-CRAZY-EYED-YOUNG-GUY"... into giving up the ship and its entire crew... with the end result being that he was the lone remaining hostage. Richard grew up in the New England area in an Irish-American family and was one of eight kids. (Four boys and four girls.) His life was built around a love of sports and he states: "HELL, I LEARNED EVERYTHING BY PLAYING SPORTS." One of his favorite athletes was Larry Bird whose toughness he respected. His explanation of the inner workings of his family are not unlike many families in his generation: "MY FATHER PROVED HIS LOVE BY GOING OUT AND WORKING LIKE HELL. YOU WANTED THAT *AND* A HUG EVERY NIGHT, TOO? GO TALK TO YOUR MOTHER." Perhaps one of the best quips in the book is delivered when he describes life with his Father. "IT WAS LIKE GROWING UP WITH VINCE LOMBARDI IN A BAD MOOD." Richard wound up quitting sports... doing some drinking... getting in some fights... and among other jobs

drove a taxi. His life changed and his future was truly started when he applied for and got accepted at the Massachusetts Maritime Academy. It was here he expanded and polished the inner drive to never let anyone get him down... he proved to himself and others... regardless of rank or position that they could never make him quit. A trait that obviously serves him well to this day...
