As a former part-time college instructor beginning her first year teaching high school, I found this workbook to be a valuable resource. It is filled with enjoyable activities that appeal to high school students and also meet curriculum requirements. I also found it to be helpful with "filler activities" for those awkward moments when one can't dismiss class and all work has been completed. I strongly endorse this book for teachers of speech and theatre.

Many of the things that a teacher is taught in school about what one should teach and how one should teach really aren't that useful once a teacher actually starts teaching. Not only that, but many

beginning teachers struggling with teaching the things they want to teach in a way that excites students and causes them to want to learn. Speech classes at the secondary level are no different than classes anywhere else and public speaking/speech teachers struggle just as much as any other teacher with how to make lessons practical and applicable in the classroom. THE COMPLETE BOOK OF SPEECH COMMUNICATION is a great tool for any speech teacher looking for ideas to use in the classroom. As a beginning teacher, I have found it incredibly valuable. I have found it especially useful in trying to create lesson plans and to find fun ideas for fillers to use at the end of a class. The book is full of ideas and covers many of the areas of public speaking from informative speeches, impromptu speeches, oral interpretation, persuasive speeches, reader's theatre, just to name a few. It's a wonderful resource.

This book was all I needed to create a fun public speaking course curriculum for middle school students. The layout was clear and easy to read. There were many interesting and fun activities/lessons which I could incorporate into the lesson. There were a lot of fun and creative ideas that made the students WANT to speak in front of a group! Great supplement for the classroom!

This book is absolutely great. It's creative, easy to read, and even easier to employ in the classroom! It can be used with multiple grade levels- middle school, high school, and beyond. I found it inspiring and would recommend it to anyone associated with the public speaking / oral communication training field.

This is such a great book for Speech teachers!! It is very informational and has some unique and FUN activities you can do with the students. I would strongly recommend to anyone who wants/needs ideas for the speech classroom!

As a new professor, thus far, it has helped me a great deal.

I was a little disappointed in this book overall. I thought it would have great activity ideas for my speech class, and they were just "average" or "so-so" ideas--nothing that was workable or useful.

I was looking for a book for my middle school kids to teach them how to speak effectively. I have about 20 pages with sticky notes on them because they are such great activities. Highly

recommend.
